N/A	
Has everyone seen the minutes from the last meeting?	
Yes	The school council have all agreed that the minutes are correct.
Are these minutes OK?	
	All in agreement.
First thing we are going to talk about:	
School rules - safe, ready, respectful	The council spoke in depth about how as a school we keep everyone safe. The council felt that we do keep everyone safe but have suggested that all rooms/corridors have cameras as some currently do not.
Daily reflection time	Some of the council weren't clear on what this time is. Once DH and SG had clarified that this is time to reflect, the council understood. All classes should have three class-based opportunities to access daily reflection as well as two assemblies per week.
Emotional regulation	DH asked if all classes had access to a regulation board. The council agreed that they do - a variation of approaches is used across upper school to reflect their needs. The council were tasked with ensuring their emotional regulation boards are up in class and to speak to their class staff about how these are used.
Would anybody like to mention anything else?
