

Key Stage 3 Maths

In order to teach and support every pupil at The Observatory School, we aim to personalise their learning as much as possible. Throughout the Maths Curriculum, the policy is to set pupils based on their ability, enabling the learning to be more appropriately structured and to meet the needs of every pupil.

We pride ourselves in offering a rich, balanced and progressive curriculum. We actively promote our pupils to develop their reasoning, problem solving and numerical fluency. The Mathematics department uses STEAM links and projects to promote industry and cross curricular links.

Newton Year 7 Social	Baseline assessment Number and Place Value- Count to 1000 and backwards Explore number values. Multiplication tables (in particular 2, 5 and 10)	Addition & Subtraction- dependent on pupils' ability Statistics	Multiplication tables (1-12) Long Multiplication and Division. Problem Solving- dependent on pupils' ability. Some pupils may focus on their multiplication tables	Fractions- Equivalent Fractions, Comparing fractions with the same/ a different denominator Adding and Subtracting Fractions	Geometry- Properties of 2D and 3D shapes. Lines of Symmetry Angles Position and direction	Measurement- length/height weight/capacity Telling the time Understanding money Perimeter and Area
Parks Year 7 Sensory	Baseline assessment	Addition & Subtraction- dependent on	Multiplication tables (1-12)	Fractions- Equivalent Fractions,	Geometry- Properties of 2D and 3D shapes.	Measurement- length/height weight/capacity
